HIGH TARIFF AFTER WAR IS VITAL--HUGHES

People Who Think Present Prosperity Is Sound Are Building on Sand, Nominee Tells Joplin.

PICTURES FACTORIES ALL IDLE AFTER WAR

Sees Workmen in Piffling Plight Unless Republicans Are Elected to Put Over Enormous Tariff.

(By Review Leased Wire)
JOPLIN, Mo., Oct. 13.—Charles E. Hughes today took his campaign to Missouri, the fourth of the state that skirt the so-called "solid south" to be visited on his present trip. Save for one stop, at Springfield, Mo., the entire day was spent traveling. The nominee reached Joplin tonight and addressed an audience, making his chief theme the protective tariff.

Abnormal Prosperity
Mr. Hughes told the crowd that the present prosperity of the country was built on sand and that the intoxicated fancy may induce happy dreams but the sober thought of the country is directed to the day when the stimulant—the European war—would be no longer available. He referred to those who are seeking to make political capital out of our present war prosperity, portrayed in detail conditions as he viewed them in the United States when the war shall end, and assailed the Democratic tariff policy as a policy which "means idle plants and impoverished workmen."

Coercion vs Reason
At Springfield and again here tonight, Mr. Hughes assailed the administration for the enactment of the Adamson law.

"What are real laws?" he asked. "Real laws are passed after inquiry with some understanding of the justice of the case, with some idea of what is involved, of what ought to be done. I am opposed in the interest of labor, to government by holdup and I am for government by reason and fairness."

Fools Paradise, This
"No thoughtful American can view our present economic condition without serious apprehension. We are under the unhealthy stimulation of the European war. Hopes are raised that cannot be fulfilled. Our present prosperity is built on sand. Our trade is not determined by conditions of normal condition but of the abnormal European war."

The Hungry Market
"Everything we produce, foodstuffs, metals, manufactured articles of every sort, Europe puts forth her hand for, to fill the void created by her extremity. The resulting employment of labor on an unprecedented scale and increased purchasing power stimulates trade throughout the country. The intoxicated fancy may induce in happy dreams but the sober thought of the country is directed to the day when this stimulant will be no longer available."

"You cannot have our exports suddenly jump hundreds percent and ignore either the cause or the effect of its removal."

After War—Then What?
"What will be our condition when the war is over? In the first place a large amount of labor employed at high wages will lose that employment. The demand which it is now supplying will cease. The mere stoppage of the manufacture of munitions will make in itself a serious condition in the ranks of labor. When the millions of men in the trenches return to production, our exports of manifold products will fall off tremendously even as they have risen tremendously."

"Think of the percentage of the American labor now profitably employed in making Europe's necessities created by the exigencies of war. What will occur when these necessities no longer exist? The labor now devoted to that abnormal demand must compete with the labor satisfying the normal opportunities of American trade. The change will be reflected in diminished purchasing power."

Wont Exaggerate
"I do not desire to exaggerate."

Champions' Spoils Net Each Red Sox \$3,826.25

(By Review Leased Wire)
BOSTON, Oct. 13.—Today the Boston Americans divided the winners' spoils of the world's series which they closed with a victory over the Brooklyn Nationals here yesterday. Full shares of \$3,826.25 each were given 22 players, including several who had figured but little in the team's success.

The remainder of the \$9,875.47 that the team won was given to substitutes and club employees. Heine Wagner and Vean Gregg received three quarters of a share each, Wyckoff and Pennock divided one share and Walsh who came to the team only in the last month of the season was allowed \$1000. Edward Riley, the former secretary and Charles Green, the club trainer, were given \$500 each, and other employees were remembered with lesser sums.

Some of the Red Sox will remain together for a few days to play an exhibition game at New Haven, Conn., next Sunday. Others started on motor trips to hunting preserves in Canada or to their homes in distant places, some in California.

LOSERS GET \$2,715 EACH.
NEW YORK, Oct. 13.—Each of the twenty-four players on the Brooklyn National baseball team who was entitled to a share of the series receipts received a check for \$2,715.40 today. The amount divided among the players was \$6,170.98.

FALL TELLS HOW TO PACIFY MEXICO

"Send Americans Back There to Their Holdings and Protect Them," He Tells Large Audience in Denver.

(By Review Leased Wire)
DENVER, Oct. 13.—"All that is necessary to restore peace in Mexico," declared Senator A. B. Fall, of New Mexico, to a large crowd here tonight, "is to tell the Americans to go back to their properties in Mexico and then protect them." He sharply criticized President Wilson's entire Mexican policy, and asserted his "peace" had cost more lives than "McKinley's war."

Senator Fall asserted that Roosevelt, when president, was confronted by a situation which might have led into war but he maintained the peace.

U. S. Owns Most.
Speaking of American interests in Mexico Senator Fall declared they overbalanced those of the Mexicans themselves, though the Mexicans own much of the land. He accused President Wilson of suppression of information regarding Mexico, saying he called stories which came out of here, "alarmist reports."

"But he indicted his own administration when he became angered at Carranza's note and on July 30 sent him a note corroborating every alarmist report sent out of Mexico," the senator continued. "I regard Mr. Hughes' promise to protect Americans in Mexico," he said, "as something constructive, and not as a criticism of Mr. Wilson."

CENTRAL WESTERN GRIDIRONS TO SEE BIG GAMES TODAY
(By Review Leased Wire)
CHICAGO, Oct. 13.—Football eleven of the central west will swing into action tomorrow in the first real test of the season.

Illinois will be the first in the west to engage in a section contest. The Colgate eleven of Hamilton, N. Y., will oppose Illinois at Urbana. Chicago and Ethica will furnish the only contest having a direct bearing on the "big nine" championship. This game probably will eliminate the loser for the western conference race. It is the only contest on tomorrow's schedule bringing "big nine" teams together.

Minnesota will have North Dakota University as its foe and is regarded to win. Wisconsin is expected to triumph over South Dakota State, which lost to Minnesota last week, 7 to 41. Notre Dame will take on the tricky Haskell Indians at Notre Dame.

NEW HAVEN RIFLEMAN SHOOT 104 OUT OF 105.
(By Review Leased Wire.)

JACKSONVILLE, Fla., Oct. 13.—W. H. Richards, of New Haven, Conn., a civilian, by scoring 104 out of a possible 104, won the Leech Cup and first prize in the opening match today of the National Rifle Association tournament. Sergeant E. E. Greenlaw, United States Marine Corps, and Edward W. Swearingen, Pennsylvania national guard, finished second and third with 104 points each but with lower records on the longest ranges or on consecutive bulls eyes. The contest was at 800, 900 and 1,000 yards, seven shots at each range. The adjutant general's match was postponed until October 19.

Bacon Replies to Attack By Wilson

Disgruntled Candidate Expresses Contempt for Any-one Suspecting Him of Any But Neutral Motives.

(By Review Leased Wire.)
NEW YORK, Oct. 13.—Robert Bacon, who was a candidate for the Republican nomination for U. S. Senator from New York at the recent primaries, made public tonight copies of an "open letter" he has written to President Wilson, with a caption saying that it is a reply "to an attack upon him by President Wilson in the course of his speeches at Shadow Lawn last Saturday."

The letter in part says: "The statement that it was my intention if elected senator to promote 'the interests of one side in the present war in Europe,' and thereby violate my oath of office, is beneath contempt. My respect for the President of the United States saves me from characterizing such a statement such as it deserves. I leave my judgement of its falsity to the public. Anyone who knows of me at all must know that for the last 30 years my life has been devoted to the cause of better international relations and the peaceful settlement of international disputes."

Tampico, Mexico Is Quarantined
(By Review Leased Wire)

EL PASO, Oct. 13.—Newspapers arriving here out of Mexico state that the governor of Nuevo Leon has placed a quarantine on all passengers, correspondence and freight leaving Tampico, because of the contagious diseases that have broken out in that port. Not only yellow fever and cholera have appeared, it is said, but also a disease new in the experience of medical men there, which claims children as its victims.

CO-OPERATION URGED WITH MILKMEN

Dairymen, Restaurant Keepers and Board of Health Hold Meeting at Which Time Policy of Board is Outlined.

Asking that co-operation, instead of antagonism, characterize the relations between the milk dealers and restaurant men of the Warren District with the board of health, Dr. Herendeen, city health officer, Dr. Hunt, county physician, and Dr. R. B. Durfee, city and county bacteriologist, last evening addressed a gathering of milkmen and restaurant men at the Central school.

"It is not our purpose to antagonize you men," said Dr. Herendeen. "It is, rather, our aim to help you and in that way raise the quality of the milk supplied in the city and in the Warren District, to a high degree. We want to co-operate with you and aid you in solving any of the problems that may confront the producers of the product."

"We have concluded," continued Dr. Herendeen, "that with the aid of the newspapers we will not have to take these cases to law, though the state statutes are very plain in regards to the matter. The newspapers, by publishing results of average tests in the bacteriological laboratory, can do more good than any other agency by giving these results. The people want pure milk and will certainly patronize those dairymen who produce the best."

Dr. Hunt explained the reason for the restaurant men's attendance by saying that their establishments would be submitted to the same scrutiny, as regards their milk, as the dairymen. This will protect both the dairymen and the restaurant keepers. The boarding houses will also come under this head.

Dr. Durfee, finally, explained the requirements of the law to the men present and later took all of them into the recently completed laboratory where all of the tests are made.

Germany Is Far From Licked Says Military Critic; Says Rumania Hinders Rather Than Helps Allies

(By Review Leased Wire.)
BERLIN, Oct. 13.—In answer to the views of Generals Joffre and Haig as to the results of the Anglo-French offensive on the Somme and also in reviewing the situation on other fronts, the military critic of the Overseas News Agency, a semi-official bureau, writes:

"Just as General Joffre did, General Haig now feels obliged to strike a balance of the result of the battle was published a few days ago. In it the British commander takes a view curiously opposite to that taken by the French commander, who considers the gain of terrain as the main result."

"The British general says: 'The uninterrupted systematic pressure of the entente armies must finally exhaust the morale and material forces

U. S. Navy Hunts Hidden Submarine Base of U-53

when the European war began general orders were issued to the fleet commanders to take all necessary steps to safeguard American neutrality.

So far as the department knows, there was no intention on Admiral Mayo's part to extend his search south of Newport. Navy officials believe he had no very definite information on which to act. It has been the policy of the navy department to investigate reports of secret radio stations along the coast without waiting to determine their credibility. Navy officers have been impressed with the necessity for running down such rumors quickly to prevent violation of neutrality.

Secretary Daniels made it plain tonight that the admiral had acted on his own initiative in sending out the scouting craft on this mission, although

12 MEXICAN BANDITS DIE BY NEW DECREE.
*** * * * ***
MEXICO CITY, Oct. 13.—General Emilio Orozco, of the Zapata forces, who has caused much trouble in the state of Mexico, was captured in the nearby hills today with 12 of his men. They were shot.
General Benjamin Hill, the constitutionalist commander, announced today that the decree providing for the immediate execution of bandits would be rigorously enforced.

DEMOCRATS ARE CERTAIN TO WIN IN ARIZONA

So Declares Geo. J. Stoneman, Chairman of State Democratic Central Committee in Bisbee Yesterday.

George J. Stoneman, chairman of the Democratic state central committee, and one of the most prominent lawyers in the state, declared last evening while visiting Bisbee, that the Democracy of the state and country was certain to triumph this fall.

"This is not time for Democratic apathy or wavering," said the visitor. "Our national and state tickets are deserving of the honest effort of every Democrat during this campaign. I believe that Arizona will remain loyal to the party which has done so much for the people of this county, during the Wilson administration of four years."

"I understand that there must be disappointment in all convention or primary party results, but I also understand that if one desires to preserve his party regularity and standing it is necessary to accept primary results and acquiesce in the action of the majority, though he may remain of the opinion that his primary favorites were the better men," continued Stoneman.

Stoneman says the results of the Democratic campaign in northern Arizona during the past ten days have been highly gratifying to him and also to the Democratic state candidates and to those associated with him in the campaign.

The principal speakers in the northern campaign have been Governor Hunt, Senator Ashurst, Congressman Hayden and Wiley E. Jones, candidate for attorney general. Everywhere these gentlemen have been well received, said Stoneman, and the outlook now is that the five northern counties will return a majority for the entire Democratic state ticket from Governor Hunt down to the bottom name on the ticket.

Chicago Chief of Police Suspected of Aiding Gamblers

(By Review Leased Wire)
CHICAGO, Oct. 13.—Charges of State's Attorney Macley Hoyne that Chief of Police Charles C. Healey and other city officials are responsible for gambling and other violations of the law will be heard tomorrow before Chief Justice Harry Olsen of the municipal court. This was agreed to late today when application was made before the justice for warrants of arrest for the police chief and other city officials.

Several days ago detectives from the state's attorney's office raided Chief Healey's and other offices in the city hall and assert they secured evidence of collusion with violators of the laws. This alleged evidence, it is asserted, is to be presented to the grand jury.

JAP FREIGHTER GOES ASHORE AT SEATTLE

SEATTLE, Oct. 13.—The Osaka Shosen Kaisha freighter Itsukushima Maru went ashore at West Port, just north of Seattle today, while outward bound from Tacoma for the Orient, but freed herself late today and returned to Seattle for immediate survey. It was believed the vessel would be able to resume her voyage tomorrow.

FACE FEDERAL COURT ON FILIBUSTERING CHARGE

LOS ANGELES, Oct. 13.—Fred Datto, brother-in-law of Colonel Cantu, military governor of Lower California and three others were indicted by a federal grand jury late today on charges of conspiracy to violate the neutrality laws of the United States. It is alleged that they planned to ship ten machine guns to Mexico to be used by Colonel Cantu.

BITTER CARRANZA PAPER NOW VOICES FRIENDSHIP FOR U. S.

Sudden Change of Front Is Noted by El Paso Observers. Mexicans Now Talk of Co-operating with Uncle Sam.
(By Review Leased Wire)
EL PASO, Oct. 13.—The cordial relations between the American punitive expedition and the neighboring Carranza authorities is the subject of an article in El Democrata, a Carranza organ published in Chihuahua City, which is regarded here as having a changed policy toward the United States, looking to a more extended co-operation against Villa.

It was this paper that brought the first news to El Paso of the agitation early last June for the retirement of the punitive forces. Crimes were completed in its columns against the Americans and its editorials were devoted to attacks on American motives and methods. Never before now has it been known to speak of the expeditionary soldiers otherwise than as potential enemies.

In an issue that has just reached the border, the paper makes a display of an interview with a Mexican advocate returned from Casas Grandes who describes the peace and prosperity in that district and the spirit of co-operation between the American and Mexican troops. He said there were no longer any complaint against the conduct of the Americans, who furnished food and work to many Mexicans in road making and who asked permission of the nearest Carranza authorities to effect scouting movements. Suspected bandits taken by the Americans were now turned over to the Mexican commandant. The advocate also said there was every indication that the Americans were prepared to withdraw at any time, regarding their stay in Mexico as temporary.

ARREDONDO BACK AT WASHINGTON

(By Review Leased Wire)
WASHINGTON, Oct. 13.—Eliseo Arredondo, Mexican ambassador designate here, returned to his post today, after a series of conferences with General Carranza in Mexico City. He declined to discuss his visit to the Mexican capital and when information was sought at the embassy regarding conditions in Mexico and the report that the Legation faction was threatening a serious uprising, the ambassador sent word to inquirers that he had nothing to say.

SUBMARINE SIGHTED NEAR N. Y.

Mysterious Subsea Vessel Is Reported 200 Miles East, in Path of Many Munitions Laden Vessels.

(By Review Leased Wire)
BOSTON, Oct. 13.—An unidentified submarine off the New England coast was reported by the steamship Bovic today at a time when the steamship lane to Europe was dotted with munition-laden ships just released from the embargo placed on their movements after the German submarine off Nantucket last Sunday.

STORY OF ENEMY WIRELESS REVIVED

Warships of U. S. Are Searching for Mysterious Radio and Supply Ship Believed Hidden in Inlets.

The Bovic, bound from Manchester, England, for New York, did not report the submarine's nationality but gave its position when sighted at about 200 miles due east of New York, not far from the zone of the U-boat activities of last Sunday. The Bovic is due in New York late tonight or sometime tomorrow.

U. S. Navy Searching

That the American destroyers were conducting an active investigation of stories of secret submarine bases on this coast was indicated in dispatches from Bar Harbor, Maine, which said the destroyer Paulding, sent out from the Newport naval base yesterday, made an active search of the coast between Bar Harbor and Rockland today. At dusk the Paulding put back to Rockland and it was understood that she had discovered nothing suspicious during the day. Those of her men, who were given shore liberty were ordered to report ready for sailing at 7 o'clock tomorrow morning.

Hidden Wireless Rumored

Other destroyers known to be off the coast and believed to be engaged in much the same work as the Paulding are the McDougal, Fanning and Warrington. The presence of the destroyers in eastern Maine waters recalled rumors that have persisted for months that Teutonic sympathizers have a hidden wireless station somewhere in the vicinity of Bar Harbor, and that there was a suspicion also that they were establishing a secret submarine base on the Maine coast. Submersibles operating from one of the innumerable inlets, could threaten both the steamship line to Europe and the transport ships passing out of the ports of the neighboring Canadian provinces.

May Be Merchant "Sub"

The departure of a tug from New London, where there have been reports of preparations made for receiving a German submarine freighter, gave rise to much speculation as to whether the undersea boat sighted by the Bovic was a merchant submarine instead of another raider. The tug, however, put in at Vineyard Haven and it was said there that it was going out to the Dutch steamer Bloomsdijk, which was torpedoed Sunday, to see what the chances were for salvaging work. The tug, with a diver aboard, was held in port tonight by a gale.

Spanking Rumania

"Rumania, which was expected to bring a decision for the entente, is
